

Environmental Policy

Makita (UK) Ltd is a professional and environmentally conscious company which acknowledges the impact that our operations may potentially have on the environment. Our clear objective is to minimise any impact on the environment by:

- Complying with relevant environmental legislation and any other requirements to which we subscribe that relates to our environmental aspects including the international standard ISO 14001:2015, the UK Waste Electrical and Electronic Equipment (WEEE) regulation, battery regulations and REACH regulations and the Restriction of Hazardous Substances (RoHS) Directives.
- Identifying the significant environmental aspects of the business to enable the reduction of wasted material or energy.
- Continually improving environmental performance and prevention of pollution through the setting, delivery and reviewing of environmental objectives and targets.
- Considering the effects that our operations may have on the local community
- Taking action to eliminate or reduce any potentially adverse environmental impacts
- Promoting environmental awareness amongst our employees, suppliers, contractors and partners through training, supervision and information.
- Seeking to work in partnership with the community by behaving in a considerate and socially responsible manner
- Ensuring effective and expedient incident control, investigation and reporting.
- Making the policy available to members of the public upon request.

Line management have a responsibility for the implementation of our Environmental Policy and will ensure that environmental issues are given adequate consideration in future planning and the day-to-day operations of our facility.

All employees and those contracted to carry out work on our behalf are expected to co-operate and assist in the implementation of this policy, and to ensure work is carried out without risk to themselves, others or to the environment and must cooperate with management on environmental matters.

Hideyuki Terajima
